

Design Draughtsperson

Kintech Limited are manufacturers of beds, furniture and are also general fabrication engineers to the caravan & leisure industries. Operating from our 40,000 sq foot facility, we have an enviable reputation for quality, innovation and customer service.

To further enhance our design department, we are seeking to recruit an experienced design draughtsperson, with a background in light fabrication work. The successful applicant will have ideally worked previously in a similar environment, in addition to holding a professional qualification in engineering. As well as design, they will be responsible for product costing, provisioning for sub contract processes, and preparing documentation and drawings for production in accordance with British Standards & ISO9000.

Essential to the post are:

- * A sound working knowledge of Solidworks
 - * A good understanding of applicable manufacturing processes
 - * The ability to liaise directly with our client base, to arrive at an exacting specification and cost brief.
 - * A knowledge of current manufacturing technology, including CNC machinery, welding techniques & finishing processes.
- The ability to work both alone, and as part of a project team.

The position offers an attractive salary and excellent prospects within the organisation as we continue to grow.

Closing date for applications is 30th June 2011
